# About ORCID

ORCID, which stands for Open Researcher and Contributor ID, is a global, not-for-profit organization sustained by fees from our member organizations. We are community-built and governed by a Board of Directors representative of our membership with wide stakeholder representation. ORCID is supported by a dedicated and knowledgeable professional staff.

## Our Vision

ORCID's vision is a world where all who participate in research, scholarship, and innovation are uniquely identified and connected to their contributions across disciplines, borders, and time.

## Our Mission

In order to realize our vision, ORCID strives to enable transparent and trustworthy connections between researchers, their contributions, and their affiliations by providing a unique, persistent identifier for individuals to use as they engage in research, scholarship, and innovation activities.

We do this by providing three interrelated services:

---

The **ORCID iD**: a unique, persistent identifier free of charge to researchers

An **ORCID record** connected to the ORCID iD, and

A set of **Application Programming Interfaces (APIs)**, as well as the services and support of communities of practice that enable interoperability between an ORCID record and member organizations so researchers can choose to allow connection of their iD with their affiliations and contributions

## Our Plans

The core of our strategic focus for 2022–2025 is to **build commitment to** and **engagement with** ORCID as an **essential element of the research experience**, both for researchers and members. We invite you to review *[From Vision to Value: ORCID's 2022–2025 Strategic Plan](#)*. We hope it inspires our member organizations to engage with us as they plan their own work and activities.

---

## Our Values

ORCID is an integral part of the wider digital infrastructure needed for researchers to share information on a global scale. We position the researcher at the center of everything we do.

### **Open**

Our work is **open**, transparent, and non-proprietary. We make decisions collaboratively, involving our staff, Board, those who support our mission, and the researchers and community that are the purpose of our work.

### **Trusted**

We strive to be a **trusted** component of research infrastructure with the goal of providing clarity in the breadth of research contributions and the people who make them. We are guided by the principles of privacy and researcher control and the vision of identifier-enabled research information infrastructure.

### **Inclusive**

We take an **inclusive** view. We have a diverse team, deployed internationally in our virtual office. We engage with a wide range of organizations and people to ensure broad viewpoints.

# Distinguish yourself in three easy steps

ORCID provides a persistent digital identifier (an ORCID iD) that you own and control, and that distinguishes you from every other researcher. You can connect your iD with your professional information — affiliations, grants, publications, peer review, and more. You can use your iD to share your information with other systems.

### Notification settings

ORCID sends email notifications about items related to your account, security, and privacy, including requests from ORCID member organizations for permission to update your record, and changes made to your record by those organizations.

You can also choose to receive emails from us about new features and tips for making the most of your ORCID record.

Please send me quarterly emails about new ORCID features

## Visibility settings

Your ORCID ID connects with your ORCID record that can contain links to your research activities, affiliations, awards, other versions of your name, and more. You control this content and who can see it.

By default, what visibility should be given to new items added to your ORCID Record?

-  **Everyone** (87% of users choose this)
-  **Trusted Organizations** (5% of users choose this)
-  **Only me** (8% of users choose this)

## More information on visibility settings

### Terms of Use

- I consent to the **privacy policy** and **terms of use** and agree to my data being publicly accessible where marked as "Visible to Everyone".
- I consent to my data being processed in the United States. **More information on how ORCID process your data.**
